

Introducing a New Tool in the CINA Quality Suite™

CINA Pediatric Starter Set

Since 1995, CINA has been developing products to assist healthcare providers in the delivery of quality focused, evidence-based care. This year, CINA is proud to announce the implementation of the new CINA Pediatric Starter Set for Point-of-Care Clinical Decision Support.

The CINA Pediatric Starter Set will include:

- ✓ Pediatric Universal Screenings based on Bright Futures guidelines for Well-Child Comprehensive Visits
- ✓ CDC Pediatric Immunization Schedule and Catch-Up Schedule
- ✓ Asthma Management
- ✓ ADD/ADHD Management
- ✓ Preventative Screening/Management
 - Obesity and Weight Management
 - Blood Pressure Screening
 - Lipid Panel and Dyslipidemia Screen
 - HPV/Gardasil Vaccination
 - Chlamydia Screen
 - Adolescent Risks – Alcohol/Drug/Tobacco Use and Sexual Activity

“I am very excited to add the Pediatric Starter Set to my current CINA Point of Care tool. I can now be assured my pediatric patients receive the same detailed information about their health as my adult patients.”

-Paulo Pinho, MD, FACP, FAAP
PASE Healthcare, PC
Millburn, New Jersey

Benefits of the CINA Pediatric Starter Set

- ✓ Specialized Age - Appropriate Reports generated for patients less than 7 Years and 7 – 18 Years
- ✓ Customizable Reports
- ✓ Increased Revenue through Procedure and Vaccine Reminders
- ✓ Increased Efficiency for day-to-day operations
- ✓ Enhance Staff Satisfaction Nurses/MAs will take a more active role in patient healthcare

“In Family Medicine, pediatric visits are only a small part of my day. The new CINA Pediatric Starter Set will offer helpful reminders about guidelines that I don’t use on a daily basis, such as the CDC Vaccine Catch-up Schedule. This tool will improve both the efficiency and quality of pediatric visits in my practice.”

- Terrence Feehery, DO
Healthcare Associates of Irving – Irving, Texas
